

YEAR ONE Newsletter

Dear Parents and Carers,

RE

This week in RE, we thought about the reason why eggs can be a symbol of Easter. We discussed how the egg represents the rock that covered Jesus's tomb. We also talked about how eggs can be a symbol of new life and represent how Jesus was resurrected.

Science

This week we have been learning about how some plants provide us with food. We learnt about the different parts of plants that we can, and do, eat. We also found out about the differences between vegetables and fruit.

We have also been keeping a close eye on our broad beans and have enjoyed watching them grow. We have sent them home, so they can be watered and kept healthy at home. We will love to see how they are getting on, so please keep us updated with pictures on Seesaw!

PE

We were very lucky to have Adrian return to school on Wednesday to teach Year 1 some more cricket skills. This week the children continued to work on their batting skills as well as their fielding techniques.

Design and Technology

The children have done such a great job making their puppets! This week, they finished sewing and decorating their puppets using googly eyes and felt.

Home Learning

We had a great time today for our Castles and Fairytales Day! The children made crowns, had a jousting tournament and enjoyed a medieval banquet. The children all looked fantastic and thank you so much for the food that the children brought in. Here are a few pictures from today!
