

# Year Two Newsletter

# Term Six Week Four

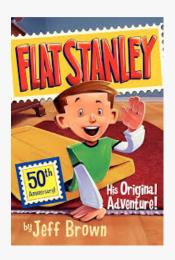

#### Maths

This week we have completed our Maths SATs, the Arithmetic paper as well as the reasoning paper. We have then started learning more about capacity. This will be continued next week

We are very proud at how the children managed their SATs the past few weeks. I will share their scores with you next week.

### English

The children have been loving our Flat Stanley Learning. This week the children created 'Wanted Posters' for the two thieves in the story. The children have been loving Flat Stanley's adventures around the world. He's now visited Alaska, Canada, USA, Spain and New Zealand! Thank you for helping your children with this project. They are loving seeing where on the map their Flat Stanley's have gone.

## Geography

In Geography we have continued our learning comparing the United Kingdom to Japan. We have specifically looked at the weather and next week we will be looking at the different cuisines.

Spellings

Group A	Group B
gold told break steak last past class pass	heart notice possible strange surprise though weight length woman various

Have a lovely weekend, see you next week! Mrs Irvine, Miss Brooks, Mrs Gibbs, Mrs Webster and Mrs Pattanshetti
