## Term Four Week Six

### English

To end our learning based on this term's text, Omar, The Bees and Me we made Honey Cake! We first started off by identifying the equipment and ingredients needed. Then we made the cakes, allowed them to cool and then finally iced them. The children enjoyed trying the cake, we were very proud of some children for trying the cake, some thoroughly enjoyed it!

### Maths

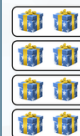

In Maths this week we have been looking at Multiplication and Division, specifically arrays. We have been consolidating learning of rows and columns. The children would look at an array and describe it by using the following sentences:

There are \_\_\_\_ on each row.

There are \_\_\_\_ rows.

There are \_\_\_\_ altogether.

Children then wrote a repeated addition number sentence to represent the array.

There are 2 in each row.  
There are 4 rows.  
2 + 2 + 2 + 2 = 8  
There are 8 altogether.

### History

Our final session about Titanic was all about the sinking. The children watched a CGI video of how they think the Titanic sunk. The children then had a Titanic quiz! The children have really enjoyed this topic and we hope they have shared their learning with you at home. I have been told there is a 'Brick Wrecks' Lego Exhibition at Chatham Dockyards until the 31st August and Titanic is one of the ships displayed. Here is a link.
