Term Five Week Two

English

All we need to say is 'egg'! A mysterious egg turned up within the chicken coop! Mrs Brown spotted it and we then went to investigate. We decided to bring it back to the classroom where we then discussed where it could possibly have come from, what kind of egg it could be and what we should do with it? We decided to all write a letter to Mrs Holditch explaining what had happened, describing the egg and also asking her for advice. Mrs Holditch has since replied to us and have told us to look after it but not to touch it as it might break!

Maths

In Maths this week, we first recapped finding half of a number. After that we then discussed what a quarter was. We first looked at finding a quarter of a shape, ensuring that the shape had four equal parts. Following on from this, we then found a quarter of a number. Some children used practical resources such as counters to support them, others were able to mentally halve the number first and then halve it again.

Woodland Learning

We had a fabulous session on Thursday. We had a joint session with Year Three. Year Two continued their Science learning about plants from the previous day, by planting cucumber seeds. We are going to observe the seeds over the next couple of weeks and record the progress. We have discussed what plants need to grow and will ensure we care for them well. Fingers crossed they all grow!
